Recommended Tyre Pressures

The 'Normal Pressures' given for the 20 inch wheels in Section 6-7 have been revised. The recommended normal tyre pressures (cold inflation) are as follows:

Front: 220 kPa (2,24 kg/cm², 2,2 bar, 32 lbf/in²)

Rear: 207 kPa (2,1 kg/cm², 2,0 bar, 30 lbf/in²)

All other recommended tyre pressures are as shown in Section 6-7.
